

School Sports Crew Application

Hello everyone!

Thank you for deciding to apply to be a member of our first ever School Sports Crew. On here you will find a series of questions that we'd like you to answer as honestly as you can. Good luck

Tell us why you would be a good School Sports Leader (what makes you stand out more than others?):

Tell us something that you're good at (your biggest strength) and something that you think you need to improve (a weakness):

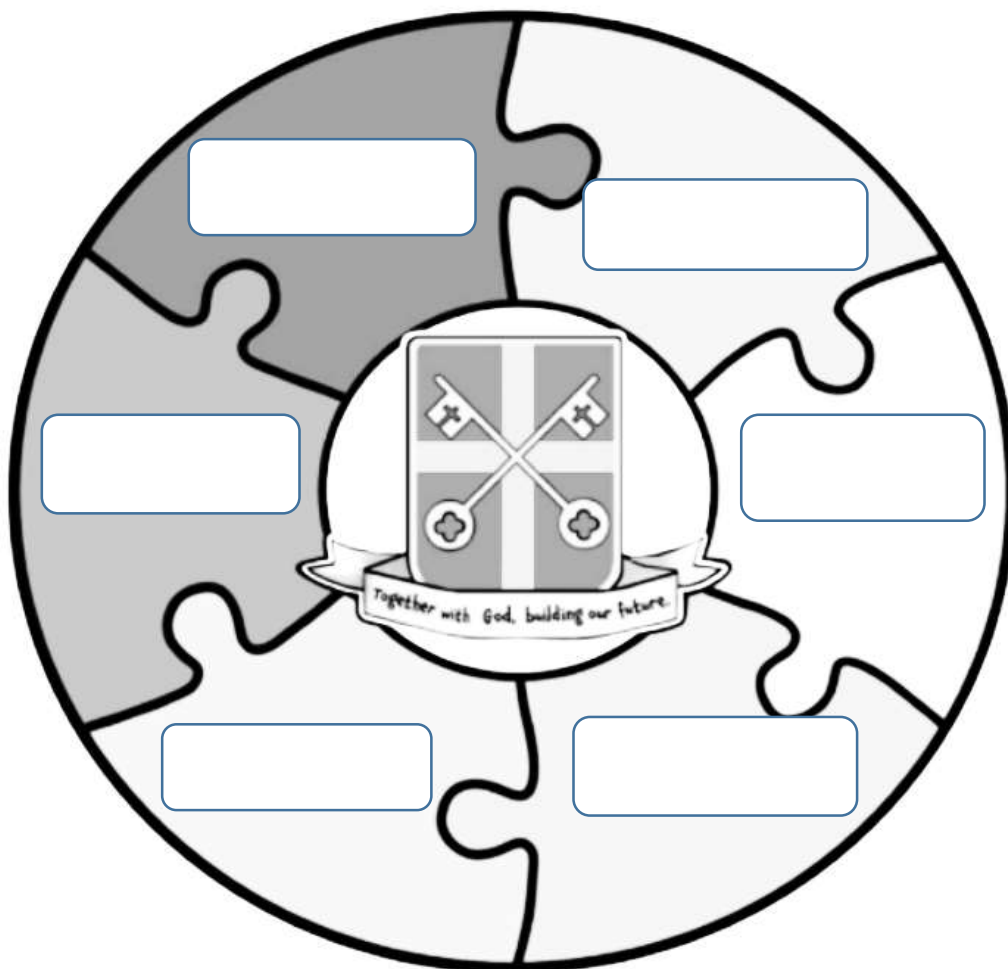

If you were selected to be part of the SSC, what changes and ideas would you bring? (What would you like to see happening during playtimes and after school clubs in school?)

Who is your biggest inspiration or role model that you'd like to be as good as one day and why? This can be anyone who you think is special (it doesn't have to be a sports star)

Every good team has a 'motto' - a short phrase that sums up what they stand for. What do you think our SSC motto should be? - Use the internet to search for ideas that you like and write it below.

Below, you will see the School Sports Crew logo - this is a very important part of the team that YOU may be a part of - other children will look up to you and you will be a role model for those around you. It is a very big responsibility to have, but a great opportunity at the same time.

You must now choose some sporting 'values' that you think are important - not just for being a good sports person, but also for being a good leader, maybe, or organiser or role model. Write your chosen values on the blank puzzle pieces below.

Thank you for your application and good luck!
